OUR SERVICES

-timely delivery and installation

we also handle the process of delivering your equipment to the site, ensuring it arrives on time and in perfect condition. Our experts technicians manage installation process.

We work closely with you to design and deliver cooling equipment tailored to your specific needs.

-On going maintenance and support

To keep your cooling equipments running at peak performance, we offer comprehensive maintenance plans. We offer support to address any issues quickly and minimize downtime.

In our workshop, we have a dedicated team of 8 technicians and 4 helpers who specialize in refurbishing coolers that we have picked up from the markets. Their expertise ensures that each unit is thoroughly inspected, repaired, and restored to optimal performance. Once the necessary repairs and maintenance are completed, the coolers are meticulously prepared for transfer to new market locations.

OUR SERVICES

-Refurbishment

In our workshop, we recently completed a major refurbishment of our cooling system, which involved replacing old accessories with brand-new ones and rebranding the entire cooler. This extensive update not only revitalized the look of our cooling equipment but also significantly enhanced its performance and reliability. By overhauling the entire cooling system, we have ensured more efficient operation and better temperature control, contributing to improved functionality and energy savings.

Refurbishment services include:

- Washing the coolers from inside and outside.
- Paint the external body as per our technician assessment.
- Check the cooling performance and replace any defective parts.
- Inspect accessories quality and replace any broken parts.
- Replace side stickers and upper header as per client requirement.
- Pack the cooler using a wrapping stretch.
